

Anything Goes Pattern Instructions

This pattern assumes that you have the basic knowledge for Patchwork and Quilting. Please read through the whole pattern before starting to cut and piece your quilt top. Use $\frac{1}{4}$ " seam allowance throughout and press seams to the darkest fabric at each stage .
WOF = width of fabric, RST = right sides together, WST = wrong sides together

No part of this pattern may be reproduced without the written permission of the authors.

Start by grabbing a handful of fabric offcuts from your scrap box and press to remove any creases

Then, starting with the smallest pieces add them to one edge of a strip or larger piece. Press seams towards the pieces just added then cut apart as shown. No need to worry about exact $\frac{1}{4}$ " seams. If your pieces are odd shapes that's fine just keep adding them on

Rotate each newly stitched piece by 90 degrees and add to the long edge of another strip or larger piece. Press seams towards the pieces just added then cut apart as shown.

Continue in this way until you have used up all of your scraps. Then finally combine them into one or more large pieces. You may want to make a number of roughly 11" squares to trim back to 10" blocks or keep joining them together until you have a long or fat quarter or even bigger sized piece as shown here

You could also cut your blocks on point like this for added variety

Finally you can use your stitched piece to make quilt blocks or any number of items such as these jazzy zippered pouches.

Thank you for purchasing our pattern.

We would love to see your makes so please feel free to tag us on any photographs you post of this quilt on social media
